

CCRN/PCCN Review

April 19 & 20, 2018

Columbia Edgewater Country Club

Program Description

This two day program is designed for healthcare professionals interested in sitting for the CCRN or PCCN Certification Examinations. In addition, this program provides an excellent refresher for nurses already possessing those credentials.

Objectives

At the conclusion of this course, participants will have enhanced knowledge of :

1. Cardiovascular, pulmonary, neurological, renal, endocrine, gastrointestinal, hematology and multisystem basic knowledge in critical care.
2. Testing areas addressed in the CCRN and/or PCCN exams.

Nicole Kupchik
MN, RN, CCNS, CCRN,
PCCN-CMC
Critical Care
Clinical Nurse Specialist

Nicole Kupchik has been a registered nurse specializing in Critical Care for over 20 years.

She finds her passion in educating nurses and arming them with tools to create safe work and practice environments. Her casual style sets the tone for a relaxed, fun and interactive learning environment. She especially enjoys teaching on cardiology and critical care topics. She believes every critical care and progressive care nurse should be certified in their specialty area.

For testimonials and more information about Nicole, please visit: www.nicolekupchikconsulting.com
